Make your house a home for a Lifetime...

Change how you live, not where you live!

According to the AARP Housing Survey, “83% of older Americans want to stay in their current homes for the rest of their lives,” but other studies show that most homes are not designed to accommodate the needs of people over age 65.

Falls of seniors are the most common injury-related accidents to end up in the Hospital Emergency Room. The bath tub/shower area is the most dangerous area for falls in the home.

Mississippi is the 9<sup>th</sup> most expensive state in the U.S. for Assisted Living

Assisted Living \$38,220/year \$ 3,185/month

Nursing Homes \$67,525/year \$5,627/month

**Average Cost to Modify a Bath Room**

- Simple Modifications \$ 100—\$500
- Medium Modifications \$500—\$3,000
- Major Modifications \$5,000—\$12,000

Most modifications to your home can be made for less than the cost of 2 months stay in an assisted living facility.
